LIMITATIONS ON THE USE OF A SPECIAL HAULING APPROVAL

NOTE: The use of the word “**permit**” in the following statements shall be understood to mean **approval**. The use of the term “**permit holder**” or “**permittee**” shall be understood to mean **the party that has been granted approval to move a special load.**

1. The granting of a permit does not guarantee that the load described can be moved without damage to the pavement or structures; although the approval is granted on the assumption that the load can be moved without damage based on the best information available.
2. Permittee will be held liable for any damage caused by the movement. The County assumes no responsibility for damage to the permittee’s equipment or load being moved due to any such failure. The permittee agrees to compensate Hamilton County for any damage to a roadway or road structure and also to hold harmless Hamilton County from all responsibility for personal injury or property damage (public or private) caused directly or indirectly as a result of the transportation of said vehicle(s) or object(s).
3. The applicant must file a bond or certificate of his liability insurance, showing that he has procured adequate bond or insurance to cover the provisions of paragraph two.
4. The permission granted restricts the movement of the vehicle(s) or object(s) to the highways specified, between the points designated, and within the time allotted.
5. Movements under a special hauling permit shall be made during daylight hours only and in such a manner to impede the least possible extent the normal highway traffic.
6. No vehicle(s) or object (s) being transported under special highway permit shall be left parked on the roadway either day or night except in case of an emergency, in which case adequate protection shall be provided for the traveling public. The vehicle(s) shall not be loaded or unloaded within the limits of the highway.
7. The operator of the vehicle must comply with all laws, rules, or regulations covering the movement of traffic over highways and streets.
8. All construction equipment and other machinery shall have attached thereto a plate showing the manufacturer’s name and the model.
9. A permit is void at any time road; weather or traffic conditions make travel unsafe.
10. Reductions in legal weight posted on roadways or bridges must be obeyed.
11. A permit will not be issued for built-up loads that are divisible into legal loads.
12. Oversize or overweight loads shall be operated or moved at such speeds and in such manner as to cause a minimum of interference with other traffic and minimum impact stresses on structure and pavements. No such movement is to exceed 40 miles per hour at any time, except upon that portion of a highway where the posted minimum speed is in excess of 40 miles per hour. The allowable maximum then becomes equivalent to the minimum posted speed.
13. Loads having extremely large dimensions shall require additional protective measures when necessary for the safeguarding of other traffic. Due regard shall be taken of traffic in both directions and every possible effort shall be made to prevent traffic congestion. One or more flagmen, a pilot car or police escort may be required.
14. Non-compliance with the general or special provisions of a permit, exceeding the weights or dimensions granted, or operating on dates or upon highways other than assigned shall render the permit null and void and the operator of the vehicle subject to arrest, as provided in Section 5577.02 to 5577.05, inclusive, of the Ohio Revised Code.
